PROFILE

UI/UX Designer with 5.5 years of experience delivering end-to-end product design for B2B SaaS platforms, web applications, and mobile environments. Proven track record of simplifying complex workflows, leading cross-functional collaboration across product, engineering, and business stakeholders, and translating operational requirements into scalable, accessible, and design-system-consistent experiences. Adept at UX research, interaction design, high-fidelity prototyping in Figma, and developer handoff. Experienced in WCAG 2.1/2.2 accessibility standards, responsive design systems, and component library development. Background spans healthcare technology, fintech, and B2B SaaS domains.

PROFESSIONAL EXPERIENCE

UI/UX Designer

Nov 2023 - Present

iMedhas Consultancy Services, Hyderabad

- Led the design of **Kretha**, a B2B inventory and order management platform, to address fragmented supplier-retailer workflows, stock mismatches, and manual order tracking.
- Owned the end-to-end UX process, from discovery and research to wireframing, prototyping, and developer handoff, improving clarity and reducing design rework.
- Translated complex business rules into simplified user journeys, helping users complete ordering, inventory, and supplier tasks with fewer steps to support operational efficiency.
- Conducted user research, stakeholder interviews, and usability testing to identify pain points and optimize workflows across ordering, inventory, and supplier management.
- Partnered with developers and QA to catch usability and implementation issues before release, improving product consistency and delivery quality.
- Applied UI design principles, WCAG accessibility standards, and responsive design to deliver scalable and inclusive product experiences.
- Helped evolve the product's design language by standardizing component usage and strengthening consistency across features.
